THE PROBLEM

Marketing teams spend too much time sifting through data and completing low-leverage, repeatable tasks.

THE SOLUTION

We're building a new kind of platform for a new way of working.

THE SOLUTION

How it works

1. Connect data

Arcane supports all major ad platforms via OAuth and requires no engineering resources to set up.

2. Ask assistant

A chat-based interface with access to live data and advanced capabilities.

3. Schedule work

Our Copilot delivers reports, research and insights into your inbox, without a line of code.
