

# Ardoq Introduction

Erik Bakstad

Co-Founder & CEO

We Love Change.

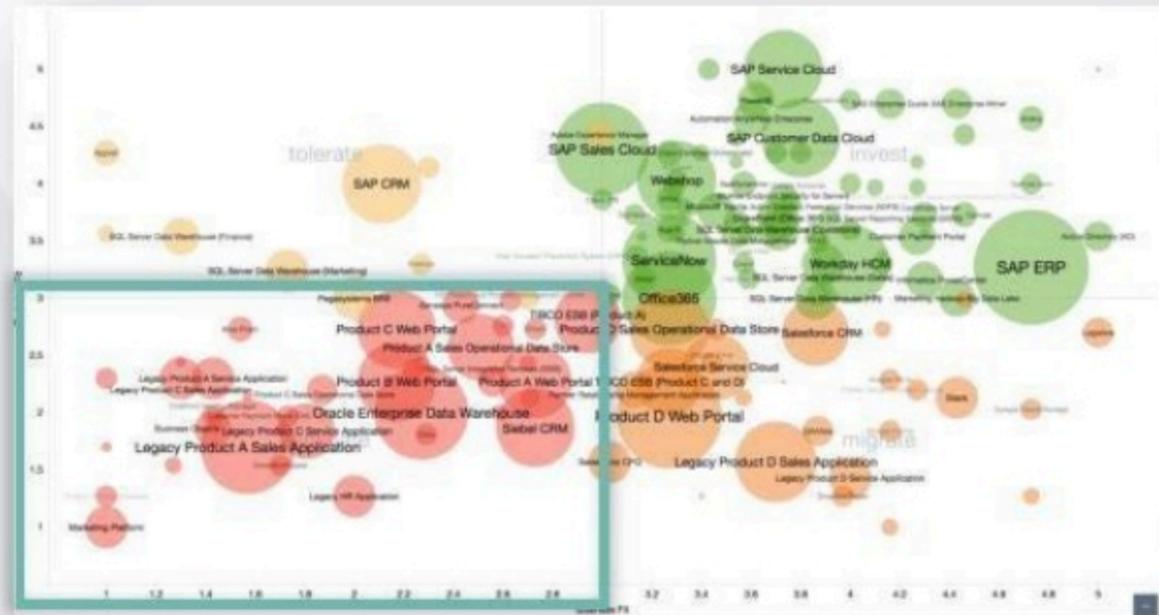

Said no one. **Ever.**

**We are here to change that.**

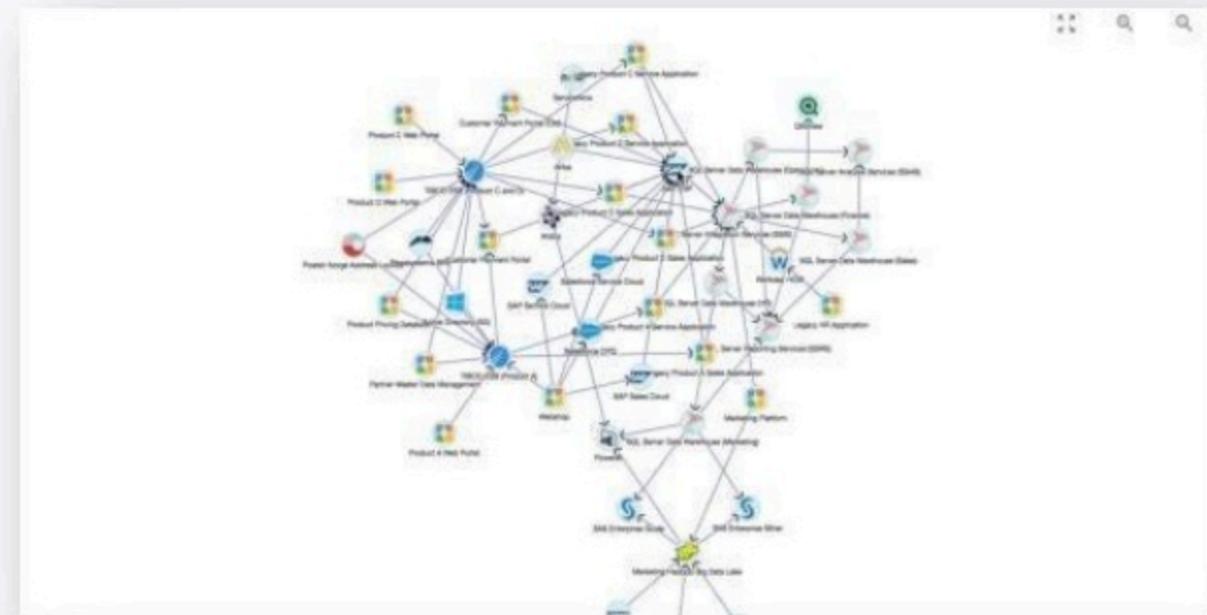

# The SaaS Platform to Navigate Digital Transformation

*“We could save over **\$10 million** in the first year through rationalization. Easily.”*

- Fortune 100, Cable and Entertainment Company

Identify rationalization candidates

Analyze impact of change

# Example Use Case: Ardoq shortens time to value in Application Portfolio Optimization

Traditional approach w. consultants

Manually combine 1000s of excels and survey data

Map dependencies in ppt, profile and score applications

Excel analysis to find rationalization potential

~5 months  
To identify candidates for rationalization

Ardoq

Automated data collection

Processing in Ardoq Engine

Instant recommendations

~3 weeks  
To identify candidates for rationalization

Automated data augmentation  
Crowdsource qualitative data through surveys, automatically identify data quality issues

## Business case

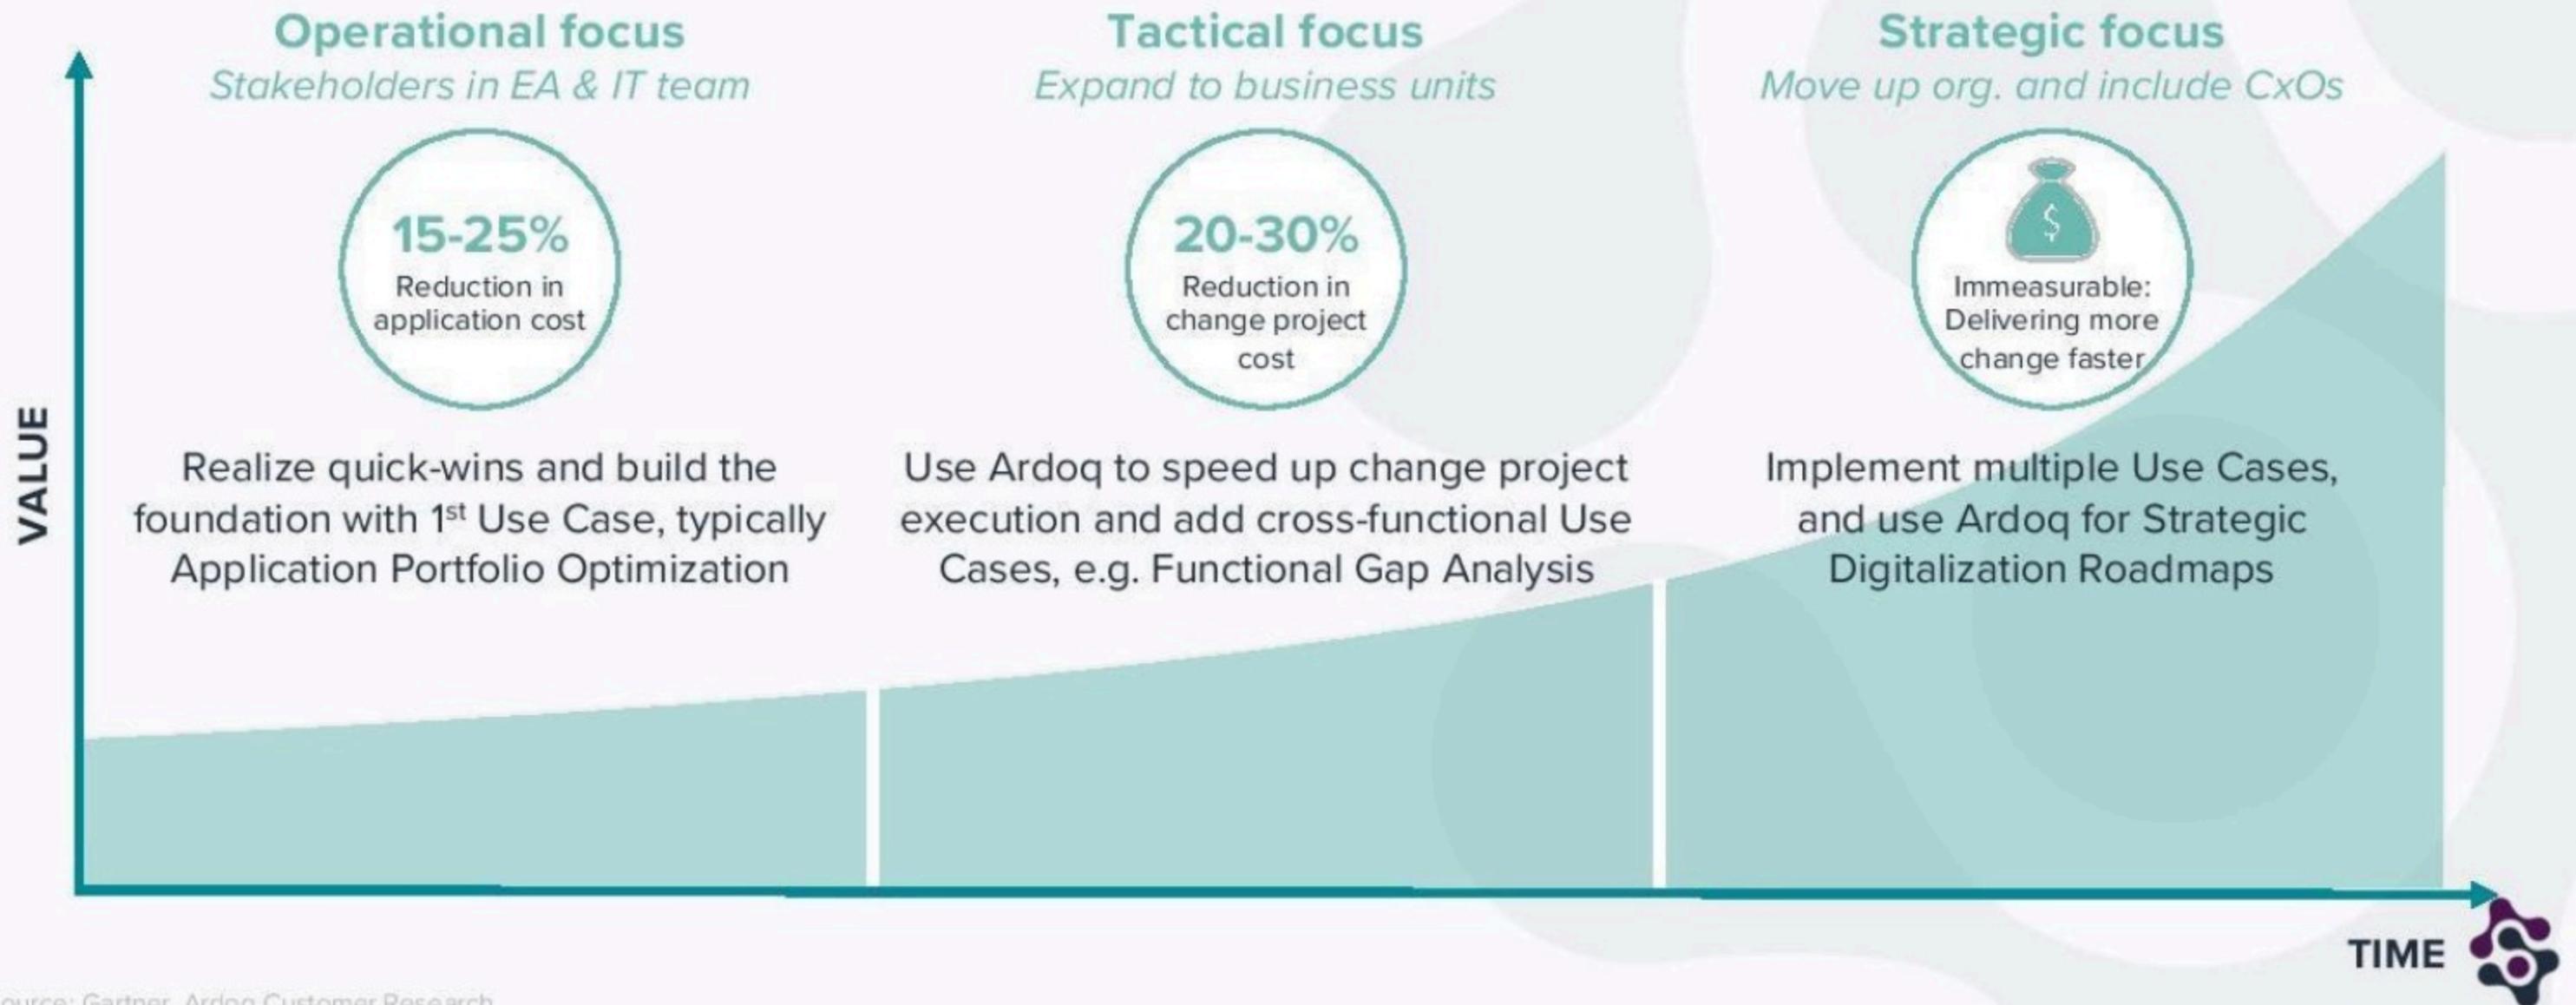

Experience shows that a mid-sized company can save **~\$0.5-1M annually** in application portfolio cost<sup>1</sup> and **~\$400K** from a more effective analysis process<sup>2</sup>

1) Gartner estimates 15%-25% savings from application portfolio optimization, business case assumes 1000 applications with avg. OPEX \$4000  
2) Assuming team of 3 persons and hourly rate of \$200, saving compared to application portfolio optimization with traditional approach and consultants
