

We help companies crush their goals

THE PROBLEM

70% of companies are failing to achieve their goals

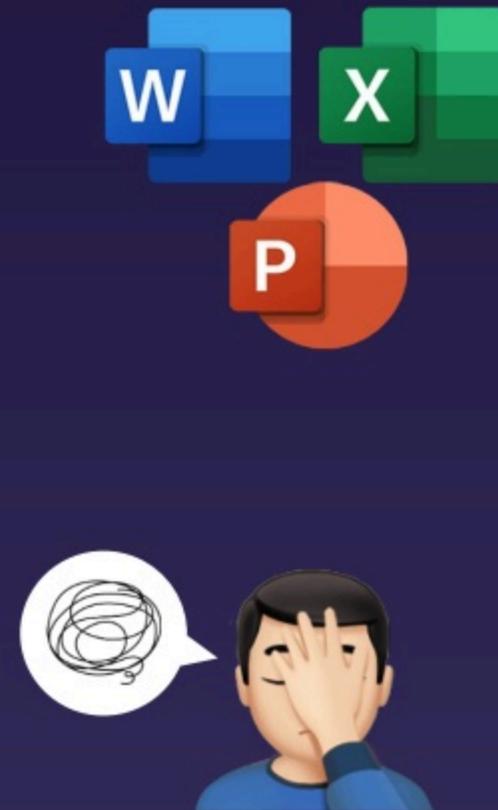

- ✗ 33% of companies are achieving less than half of their targeted improvements.
- ✗ 90% of organizations fail to execute their strategies.
- ✗ Companies have disconnected initiatives without ownership and coordination.

THE PROBLEM

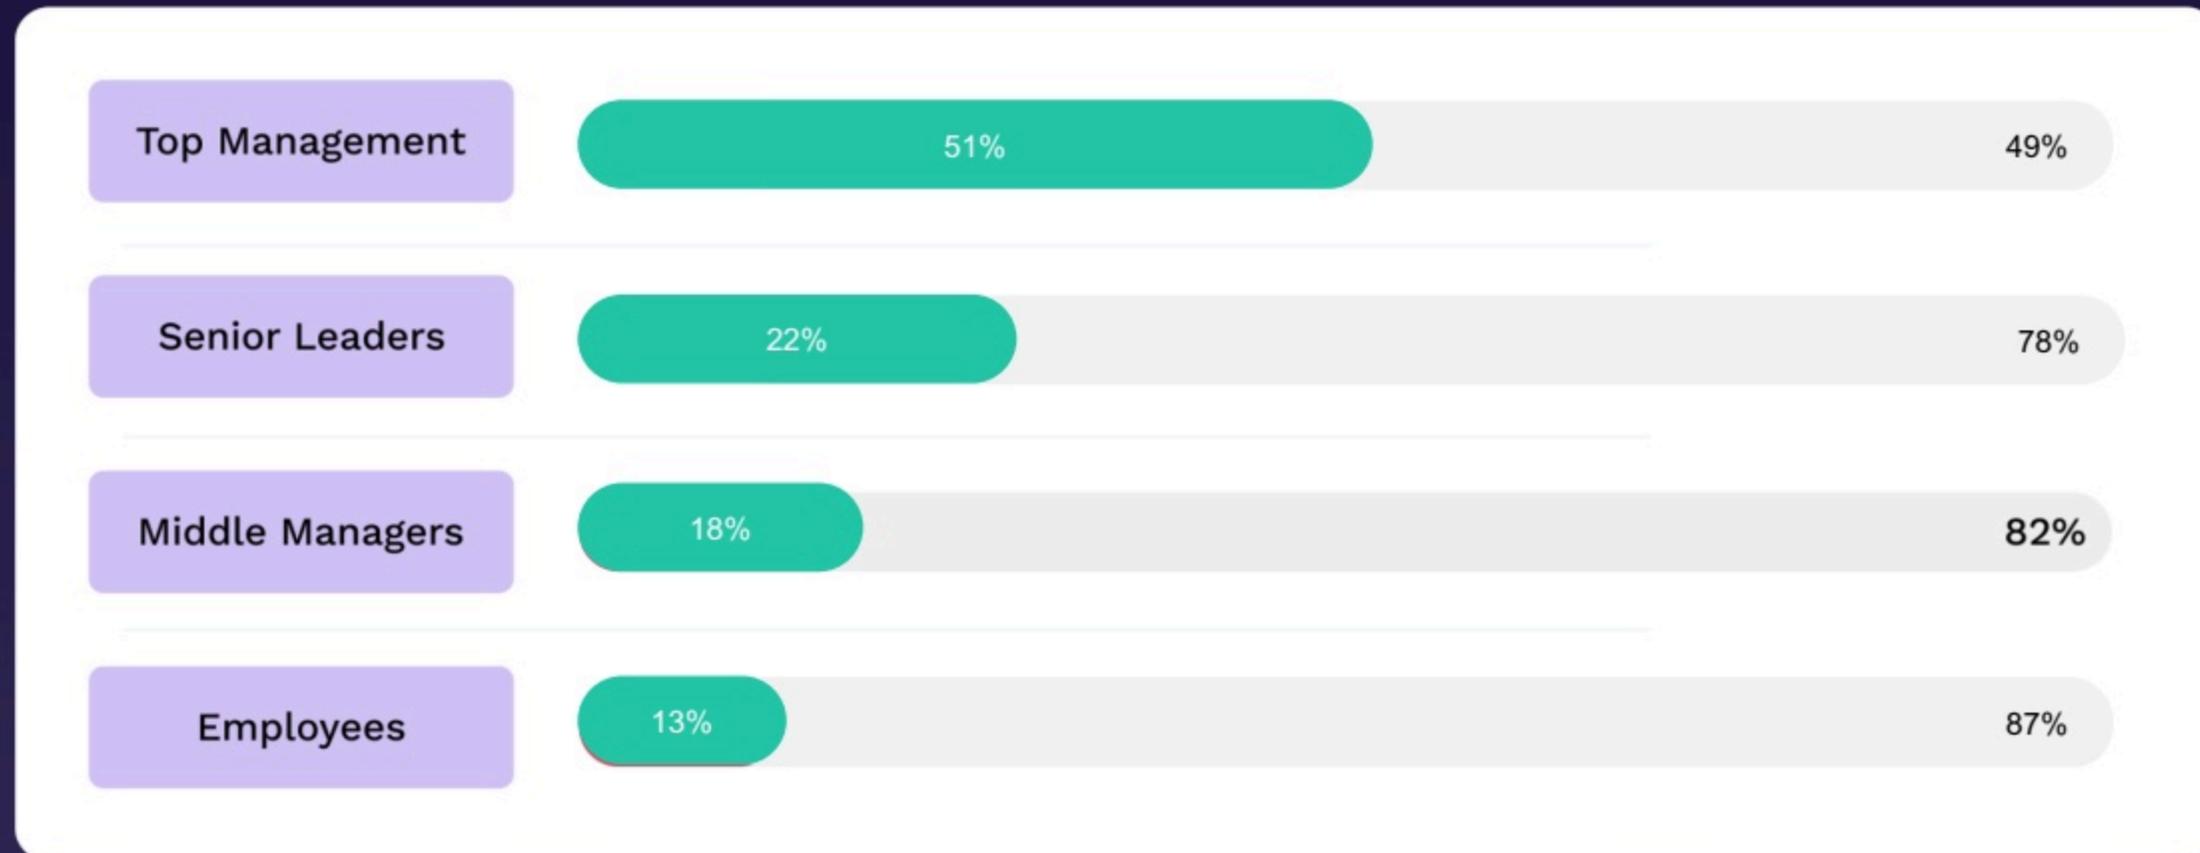

Information chaos creates stress

- ✗ Goals & strategies are documented in spreadsheets and slide decks that are stored in various digital locations and presented in different meetings.
- ✗ Too much information is harmful for performance and create cognitive overload for employees.
- ✗ 33% of companies experience inability to enable digital infrastructure. 34% lack of flexibility in existing assets and infrastructure and 31% have challenges with technology infrastructure.

THE PROBLEM

Half of top management cannot mention the goals 🤔

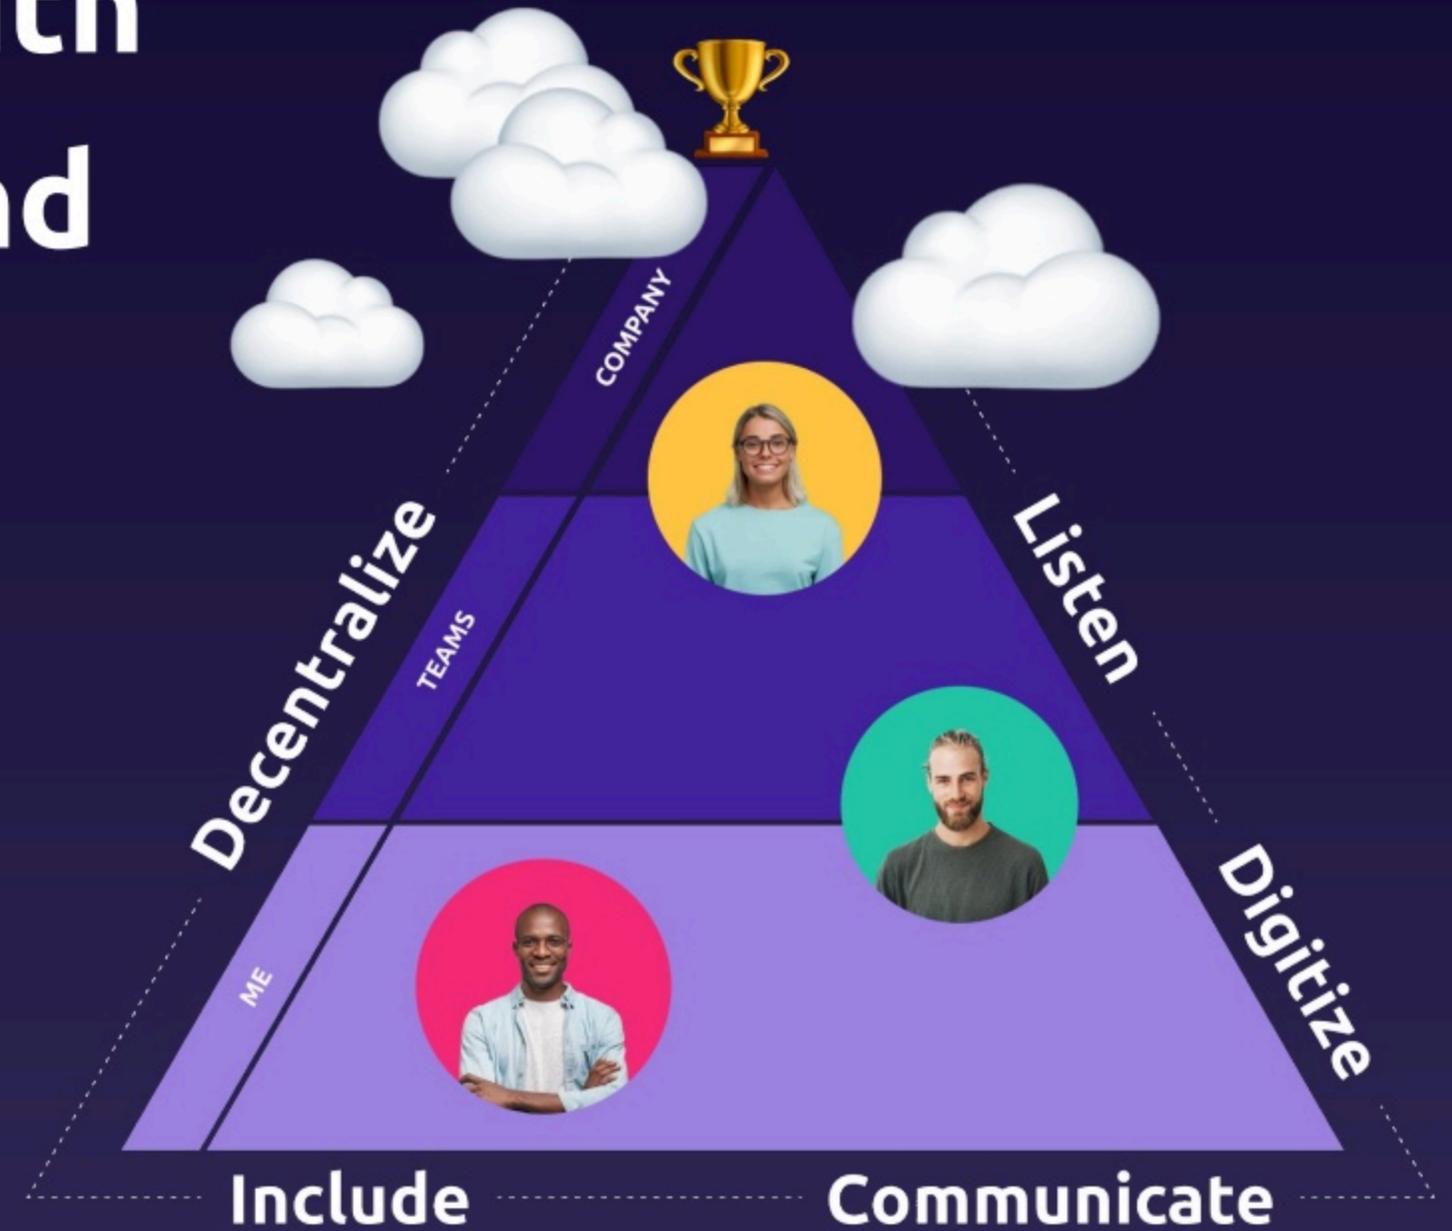

% that can list top 3 priorities for the company.

THE SOLUTION

Fixing what's broken with clarity, transparency and simplicity

- 🎯 **Simplify Goals:** Embrace simplicity by minimizing the number of goals and decrease complexity.
- 🎯 **Blend Governance and Inclusivity:** Establish a robust governance framework while fostering inclusion by actively involving employees in the process.
- 🎯 **Embrace Digital Transformation:** Drive change by digitizing, modernizing, and upgrading work methodologies to stay at the forefront of innovation.

THE SOLUTION

A goal tool marrying a collaboration tool

🎯 Creates Clarity and Alignment on all levels, between Departments and People.

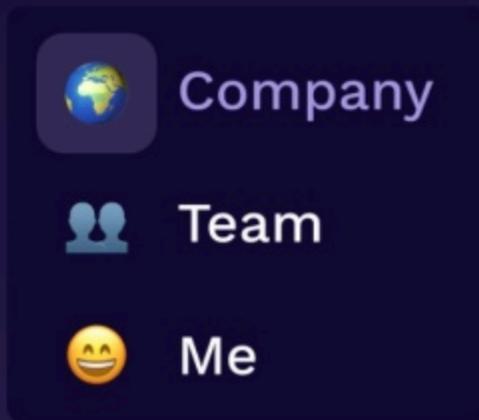

🚀 A One-Stop-Shop for Goal Setting, Collaboration & To Do's.

🏆 A Platform where Companies High Level Goals meet the Employees Every Day To Do's.

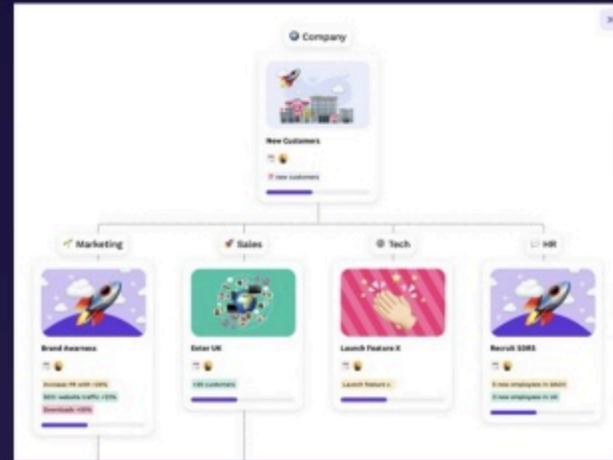

THE SOLUTION

RENEWAL

LANDSCAPE

Goal-oriented tools are commonly procured by HR departments. These platforms are often branded as Performance or HR platforms. However, their usage tends to result in sporadic logins by employees. User engagement primarily stems from essential updates prompted by managerial reminders.

Goal platforms

Complexity

We recognize knowledge tools and knowledge sharing platforms as competitors in the market. These platforms prioritize enabling seamless knowledge exchange and efficient note-taking. Often engineered by skilled professionals, they may entail substantial setup efforts to optimize their functionality and usability.

Users of collaboration tools genuinely enjoy their experience. However, they often encounter a critical void in terms of strategic goal alignment and visualization.

Collaboration platforms

Simplicity

NOQX operates in a competitive landscape, bridging three distinct platform categories:.

At NOQX, we fusion these three categories. Our primary objective is to infuse the process of setting and pursuing goals with enthusiasm and engagement for employees. We aim to make the journey of defining and achieving strategic objectives both effortless and enjoyable. Currently, we don't see any tool in the market that truly embodies this unique combination of user-friendly functionality, strategic alignment, and sheer fun in goal-setting. In essence, NOQX strives to be the perfect blend of these three worlds, ushering in a new era where setting and achieving goals becomes not only efficient but also a source of inspiration and satisfaction for all users.

THIS MAKES US UNIQUE

A goal tool marrying a collaboration tool

Imagine a Goal Tool and Collaboration Tool coming together in a user experience the world never experienced before.

Catapulted into the future by AI

With just one click, grasp your goal progress and access executive summaries effortlessly. AI is incorporated throughout the platform.

Company vision meets employee daily execution

Employees used to find the company's vision and goals hard to understand, but now they can easily connect their daily tasks to the big company goals and see the relationship.

A new way of working

When everyone is working from anywhere you can still govern your company and make sure you are streamlined.

We make strategy and goal setting fun

Making strategy understandable and enjoyable empowers employees with a clear path, helping them better align with company goals.

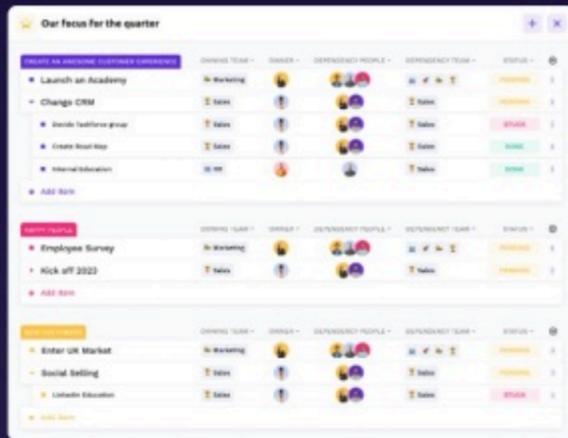

A UX the world never experienced before

We make sure the user have an unforgettable experience using our platform.
