PARSEC CONNECTS CREATIVES TO POWERFUL WORKSTATIONS WHENEVER THEY NEED IT

Deploy the power of Parsec securely across your entire organization with Parsec for Teams.

Secure your work

Parsec for Teams locks computers to only those in your organization.

Creative enhancements

Exclusive tools like 4:4:4 color mode, monitor switching, additional displays, and drawing tablet support.

Team authentication

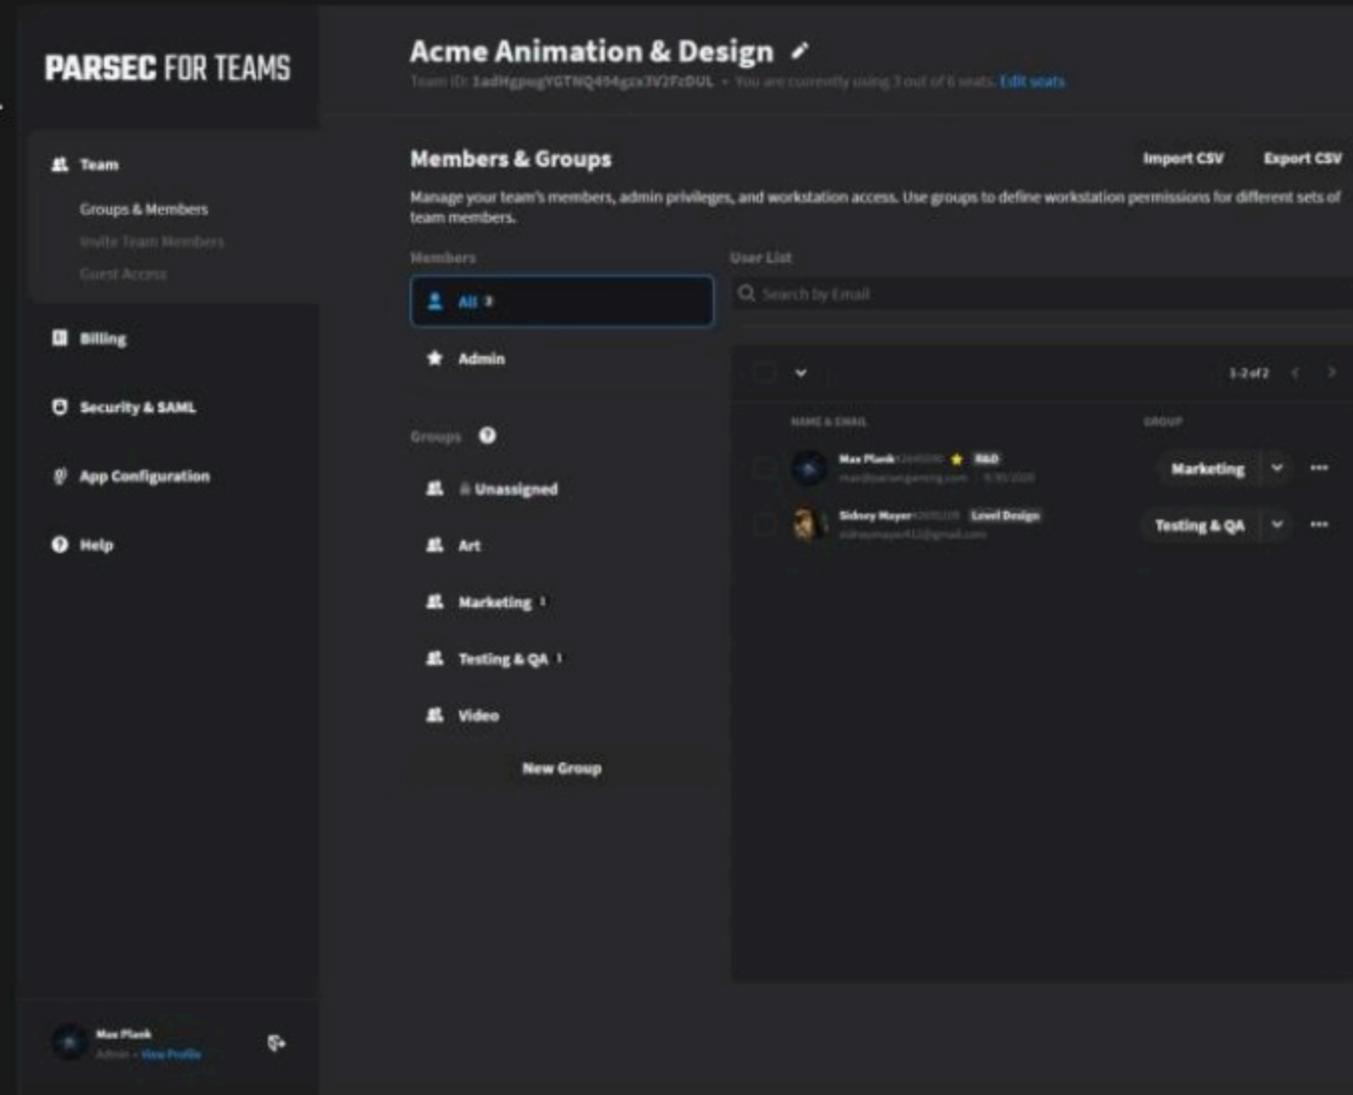

Respect your security layers with SAML single-sign on and advanced security controls.

Administrative features

Manage and organize your entire org from one simple interface.

PERFORMANCE YOUR TEAM WILL LOVE

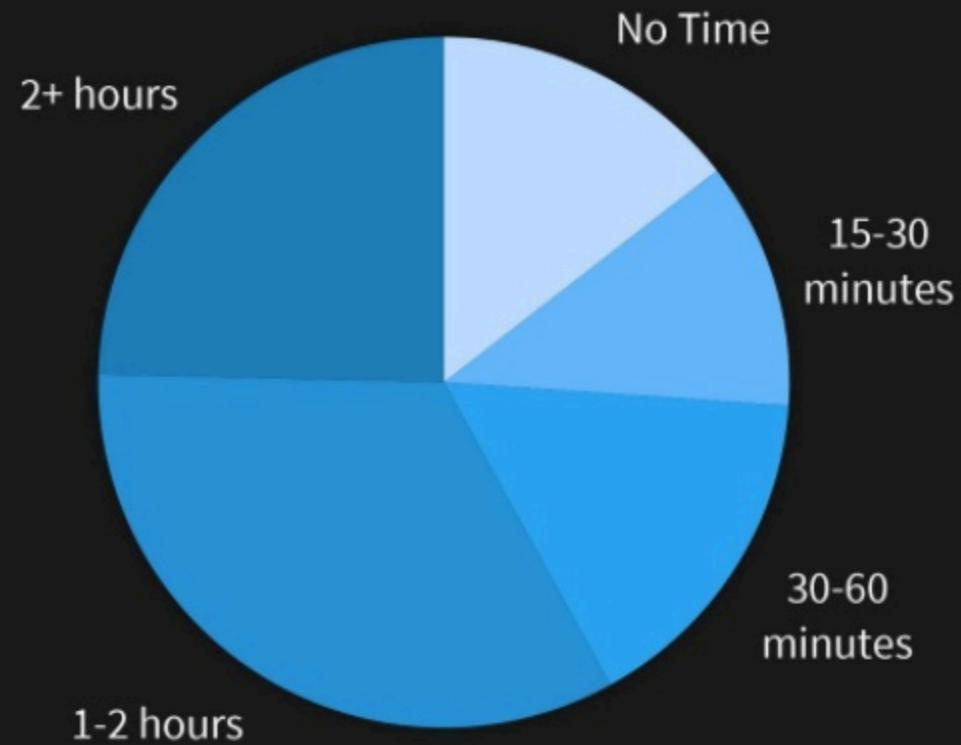

"Reflecting on my past few months of use, it has been the best remote connection software I have used, I can have several days in a row, where I can work and not even notice I'm connected remotely, which is our ultimate aim for any remote software. Often you do not realize the increase in performance until you go back to an older system."

PARSEC SAVES A COMPANY \$18,000 PER EMPLOYEE ANNUALLY

SDK

Build whole new products leveraging low latency streaming.

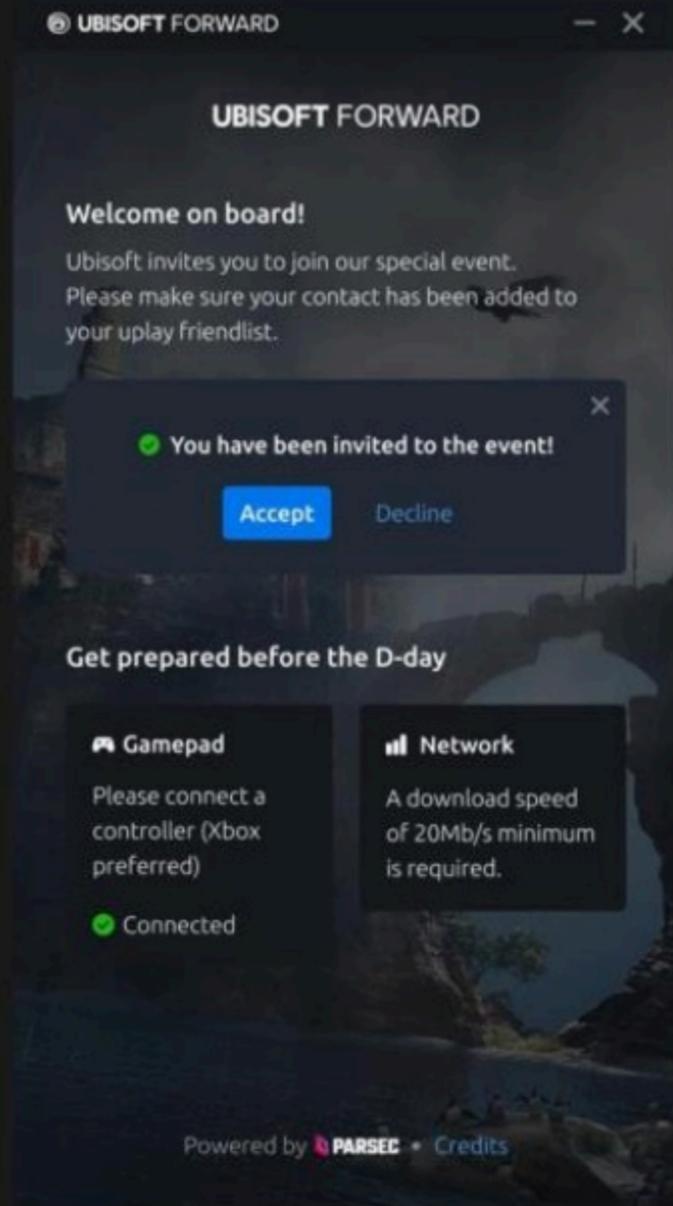

SDK

The Enterprise builds whole new ways to connect customers.

PARSEC'S SDK POWERS BRANDED STREAMING EXPERIENCES

SDK Case Study: Ubisoft Forward

When tasked with moving an E3 showcase online, Ubisoft turned to Parsec, delivering incredible results.

1,000+ journalists and VIPs

Demonstrated games from around the world

4+ hours played

Each journalist was able to play the games at length with a demoist

2x capacity

Ubisoft was able to reach twice the number of journalists they would've been able to at a physical conference

Massive reception

Both the games and the integration were covered by the biggest names in tech and entertainment media, including *Kotaku*, *GameSpot*, *Venturebeat*, *The Verge*, *Polygon*, and more

"What struck me was that they were giving feedback on the game in general, but not on the streaming itself. This indicated that the streaming solution was completely erased to make room for play..."

- Director of International Events, Ubisoft
