Prolific

We make it easy to run high quality research online

Running research online to obtain high quality data is challenging

Low participant experience

Low participant experience leading to low quality data

Poor infrastructure and tools

Infrastructure and tools for researchers are hard to use exacerbating this problem

OUR SOLUTION

We deliver the most trusted participants to researchers

Through fair incentives, advanced ID screening, machine learning and behavioural checks, leading to high quality results.

Trusted Participant Pool
100,000+ active and verified participants

Prolific's Research Platform
Integrations with 1000's of research platforms

High Quality Data
Empirically superior to other platforms
