

Raydiant

THE OS FOR

REAL-WORLD EXPERIENCES

Our Mission

Empower brands to increase sales and engagement through powerful tools; uniting online and offline experiences to create stronger, profitable relationships with customers.

This is the only platform that has been able to tie our online marketing to our in-location marketing and visibly increase revenues.

 **Raydiant**

EXPERIENCE PLATFORM

Raydiant OS fully integrated with our own hardware: We built the OS to manage these devices instead of software to install on hardware. Everyone sells an incomplete bundle. Either just the software (e.g., Four Winds Interactive), which you need to install yourself on your own equipment or just the hardware (e.g., Brightsign), which focuses on hardware and effectively requires your own software to use it. The cloud entrants only focus on basic digital signage.

Enterprise Grade Fleet Management: Make it easy for small and large organizations to fleet manage tens, hundreds or thousands of devices. The key incumbent digital signage platforms still rely on local, on-premise equipment deployments, requiring truck rolls and expensive local contractors to service and support screens.

Interactivity: Users need to be able to interact with screens locally. Raydiant has already added interactivity to the platform in the form of Kiosk touch controls for automated, interactive experiences and Video Conferencing features so that businesses can engage in two-way communications with their customers.

Device-to-Device (D2D) Control Channels: To create a truly immersive end-user experience, multiple screens need to be able to work together in a coordinated manner. Additionally, by enabling mobile devices to seamlessly connect to a Raydiant screen with a simple tap, we can enable a level of control and personalization of the screen.

RETAIL, RESTAURANT/QSR

Advantage

CRANE + GREY

EDUCATION

”

Experiences are really important to Mark. Raydiant is the only platform that has been able to create a true experience in our locations — which in turn have resulted into more revenue but also into repeat visits from our customers.

Wahlburgers

RETAIL, RESTAURANT / QSR

”

I keep waiting for them to say ‘No, you can’t do this, you can’t do that’ with Raydiant, but the truth is...you can pretty much do anything. We started with digital signage, added kiosk technology and now our tellerless solution.

First Bank

BANKING & CORPORATE OFFICES

”

Raydiant has helped us create so much excitement on our casino floor by highlighting our jackpot winners, pushing out instant promos and bringing an element of instant fun whenever and wherever we want to create that.
