EXECUTIVE SUMMARY

Games industry has been developing by convergence technology, and improving various business model. At the moment, it provides new game play model through blockchain games in global, and more process in blockchain games investment, M&A and IP licensing.

Red Door Digital creates the blockchain games, and merge IPs for the ultimate game play to users . The problem is "deadly boring games" in released blockchain games so far, the users tries to make the earn money during the playing games.

Red Door Digital is the expert on using blockchain technology, and aim to transform blockchain games of TV shows, Film, Anime, outdated videogames, plus Red Door Digital original IPs. It will tremendous value of the games and be encrypted "My item" forever in metaverse environment.
It comes out various values created output at extremely high users conversion rate will bring more users to the game industry.

Problems Set to be Solved

1. Low quality GameFi & Web3 gaming projects

2. High barrier to entry into Web3: wallet installation, fiat onramps to NFTs and tokens, cross-chain functionality, multichain support

3. Lack of understanding & education of Web3's value in mainstream culture

PRODUCT

Dinohorse Saga

Genre	Racing & Battling Action RPG
Launch	Q4 2022
Platform	Web / Mobile

◆ Overview

Dinohorse Saga, you play as a Dinohorse trainer looking to make a mark on the world. In this land, the lives of its inhabitants revolve around breeding and training a huge variety of Dinohorses for competition.
Dinohorses come in a variety of elements and elemental combinations, and a large part of the game requires exploration, gathering and catching these unique creatures. Lands are affected by the elements, and the Dinohorses elder trainers may affect many aspects of the land by participating in DeFi and our DAO. Players can earn through P2E mechanics and also by creating and trading NFTs used in the game.
