We Connect the Physical + Digital World Like Never Before...

Interlife[®]

We discovered a way to manipulate radio frequency to pin point location accuracy to a 6in, 3-dimensional cube of physical space.

A patented spatial OS that

- programs digital files to precise coordinates in the physical world
- enables ultra-precise geolocation applications

Invaluable to multiple industries

Intelligent Air

These digital files in the air interact with phones or other IoT devices as they move through physical space

- Phones
- Wearables
- Smart glasses and AR/VR headsets
- Drones / vehicles
- AI devices / robots

“Intelligent” Audio commands can be triggered as users move through environment

Disrupting the Augmented Reality Industry

- AR objects mapped to precise coordinates of airspace via radio frequency
- Not just limited to camera vision and GPS
- Content and actions can be triggered as devices move throughout space

Market Applications

The practical applications for this innovative tech range from:

- increasing revenue with transactional digital marketing
- securing digital and physical assets, defense with AI integration
- enhancing the user experience with augmented reality in entertainment venues, virtual education, and campus directories
- collecting valuable data on traffic flow and user behavior

Wayfinding

Digital Marketing with Transactional Capabilities

Sports, Entertainment + Hospitality Venues

Physical and Cyber Security

Security, Compliance, and Asset Mangement

“Intelligent” Audio commands can be triggered as users move through environment

A remote management console sets up zones that respond to different triggers, and can be changed in real time, Every “device” attached to the network is constantly monitored by the system.

- STATUS - OK
- STATUS - UNAUTHORIZED EQUIPMENT
- STATUS - UNAUTHORIZED PERSONNEL
- EQUIPMENT CHANNEL/ZONE - DANGER

“Intelligent” LED wearables can be used to guide attendees for traffic flow management

Current GTM Partners / Clients

One Platform. **Huge Markets.** Many Applications.

**Sports, Entertainment,
& Hospitality**

Investment Proposition

BY RYPPLZZ

\$3 MILLION

Use of funds for the following purposes:

- Fulfill existing deployment contracts
- Capitalize on immediate opportunities to accelerate revenue growth
- Stand up the infrastructure to support that growth
- Additional patents and IP filings

Rypplzz has developed a unique suite of leading edge technologies tuned to the needs of multiple markets and is leveraging the opportunity to bring these technologies to large addressable markets.

Rypplzz is offering an investment opportunity that is already teed up for **immediate** market traction, **rapid** revenue growth, **tangible** financial returns and **large** potential returns for new investors.
