Mission

Skyflow is a privacy data vault for customer data

Payment Vault | Customer Vault | Patient Vault

Market: Building the Privacy Cloud Company

CRM Cloud
Salesforce

Identity Cloud
{okta}

Privacy Cloud
Skyflow

Database Cloud
mongoDB

Analytics Cloud
snowflake

What is Skyflow?

Problem

- Privacy, Security & Compliance are no longer fungible.

- Drivers: GDPR, CCPA, Data Residency & massive fines.

- How do I know I am not the next Equifax, Capital One?

PII Data Vault	Skyflow

Building Zero Trust Data Vault for Everyone Else

Skyflow

- Run workflows & analytics on fully encrypted data

- Polymorphic Encryption - by leveraging more than one encryption and tokenization technique

- Data residency - plus access control, policy enforcement, auditable logging, and provenance.
