Is Solana the real Ethereum killer?

Its price is up an extraordinary 40 times over 12 months, and it's not all hype. There's some brilliant technology behind this exceptional surge.

INTRODUCTION TO SOLCHICKS

Where do we begin...

SolChicks are a race of battle chickens who have recently been discovered on the blockchain. Records from what remained in their ancient archives tell a story of a proud race who once called the planet Chicco their home. Unlike what one might expect from their cute appearances, the Solchicks organize their society in a spartan like fashion where the mightiest warriors are revered and respected. As such, every SolChick trains and aspires to rise to the top from the time they are born. Over the course of history, the SolChicks have become renowned for their bravery with countless tales and legends of SolChicks who had taken on even the most ferocious of beasts and explored the most dangerous reaches of space. Battle arenas where they challenged one another in gladiator style tournaments were a commonplace, and SolChicks around Chicco participated fervently to test their mettle and prove their strength.

Young SolChicks are born with unique attributes which give them their unearthly power and are trained in the art of combat from the moment they master walking. As they gain more experience, the stronger and more adept SolChick fledglings mature and evolve. Depending on their traits and aptitudes, the SolChicks organize themselves into a multitude of professions and callings through deeds of valor where each SolChick plays a crucial part in maintaining the strength of their social fabric. Through this system, the SolChicks thrived for generations.

Yet the peace would not last long. In the year 2021, Chicco was attacked by the intergalactic threat, the SolFox. With its mighty fangs and deadly claws, the SolFox was an overwhelming power which the SolChicks, despite their best efforts, could not overcome on their own. Many SolChicks fell in the mighty battle that took place on Chicco and alas, the SolChicks had no choice but to abandon their planet. Those who survived embarked on a long arduous journey across the stars in search for answers and a new home.

With their pride bruised and hearts desperate, the SolChicks wandered upon the blockchain galaxy until they stumbled upon Solana, where they are now seeking to rebuild and recover from the scars of their past. Although the SolChicks have been a peaceful race who kept private to themselves for centuries, this time they are seeking your help. The SolChicks have only just begun the process of healing and the memory of the fateful plight of Chicco still burns hot in their minds. They are seeking answers, but the more they uncover, the more questions they have. Why did the SolFox attack out of the blue? How did the SolFox find them?

With your fates now closely intertwined, it is now up to you to seek out the SolChicks, bond with them, train them, and eventually fulfill your combined destinies. Only together you may reach the top, vanquish the SolFox and protect the SolChick's way of life. The path ahead would be difficult, but fulfilling. Who will be the chosen ones? There is only one way to find out...
