How Vaayu Works

Using Vaayu, retailers can calculate the **carbon footprint** of every transaction.

Connecting and Using Vaayu

1

Vaayu integrates with **point-of-sale** systems

2

Retailers select relevant **modules**

- Last mile delivery
- Packaging
- Operations
- Website
- Product
- Inbound Logistics
- Business Travel & Commute

3

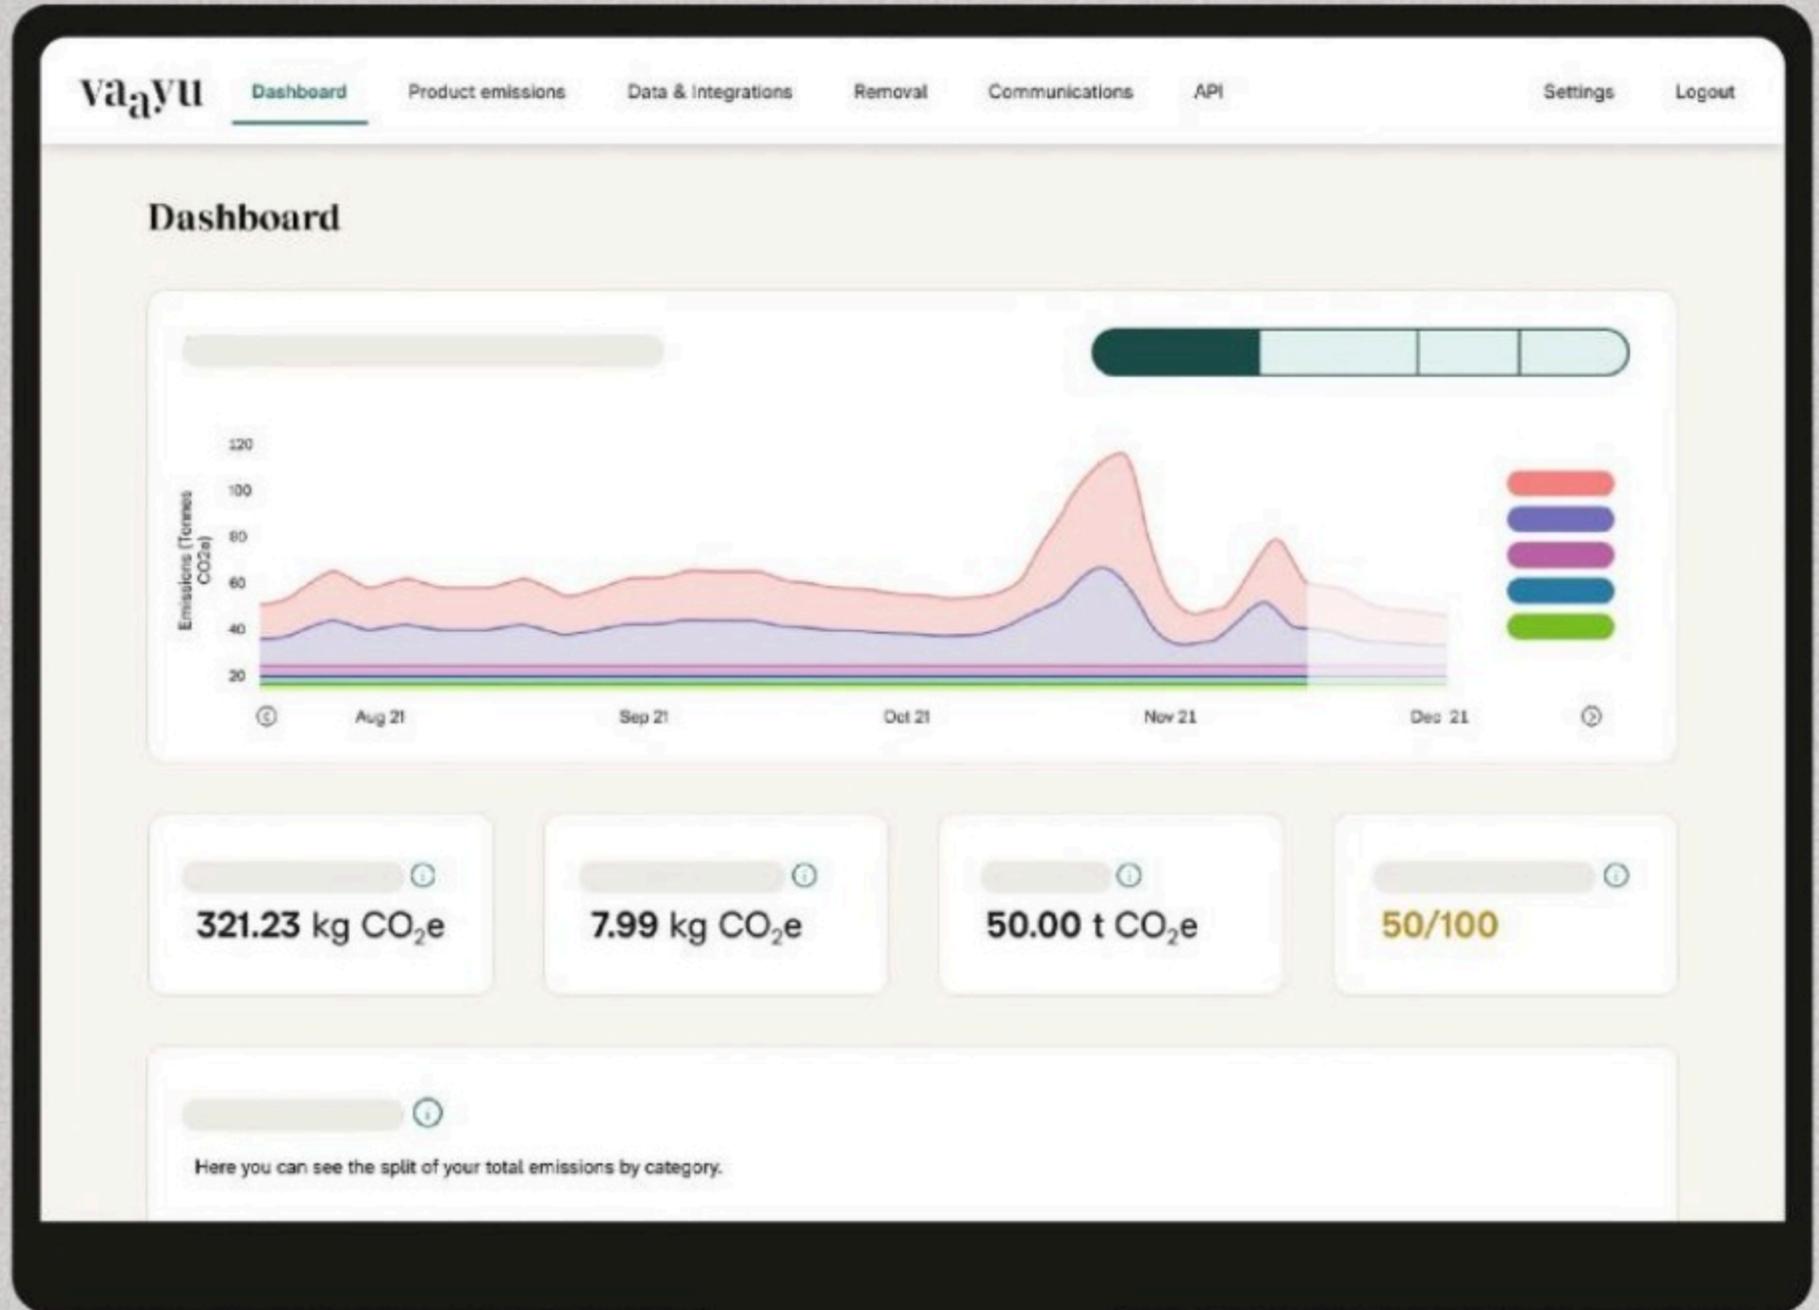

Vaayu identifies carbon **reduction measures**

4

Retailers can choose to **offset/remove** their unavoidable emissions via third-party offsetting /removal providers

Live Data

Vaayu's dashboard provides real time carbon information.

Customer Testimonials

What our customers say about us.

MISSOMA

'Partnering with Vaayu as part of our sustainability strategy was paramount to our own internal mission. With extensive backgrounds in retail, Vaayu gets us as an industry, and truly understands our needs, while allowing us to digitalize our data in real time and push the boundaries of what we could be.'

organicbasics

'At Organic Basics we take a holistic approach to sustainability, and have made carbon one of our core KPIs. We center climate action into our business model, so we calculate the carbon emissions of our entire product lifecycle, as well as our business processes, to inform every decision that we make.'

ARMEDANGELS

'This is game changing. We have never had this level of data and visibility on our carbon footprint. This saves us months of work on calculations, and we can focus on reducing, which we should actually be doing.'

By **2030**, Vaayu will empower retailers to reduce **1 gigaton of carbon emissions.**

This is equivalent to the emissions produced by Germany and France annually.
