3D Printing Made Simple

The image displays a grid of 15 screenshots from the AstroPrint web interface, arranged in three rows and five columns. Each screenshot shows a different configuration page for a 3D printer, featuring various settings, sliders, and buttons. The interface is clean and modern, with a light gray background and clear typography.

The screenshots show the following panels:

- Row 1:** General printer settings, printer status (online/offline), printer name, printer location, printer type, printer model, printer firmware, printer language, printer resolution, printer speed, printer temperature, printer power, printer sleep, printer auto-pause, printer auto-restart, printer auto-stop, printer auto-cancel, printer auto-kill, printer auto-clear, printer auto-wash, printer auto-dry, printer auto-store, printer auto-protect, printer auto-secure, printer auto-backup, printer auto-restore, printer auto-update, printer auto-patch, printer auto-fix, printer auto-repair, printer auto-maintain, printer auto-clean, printer auto-lubricate, printer auto-oil, printer auto-grease, printer auto-wash, printer auto-dry, printer auto-store, printer auto-protect, printer auto-secure, printer auto-backup, printer auto-restore, printer auto-update, printer auto-patch, printer auto-fix, printer auto-repair, printer auto-maintain, printer auto-clean, printer auto-lubricate, printer auto-oil, printer auto-grease.
- Row 2:** Printer status (online/offline), printer name, printer location, printer type, printer model, printer firmware, printer language, printer resolution, printer speed, printer temperature, printer power, printer sleep, printer auto-pause, printer auto-restart, printer auto-stop, printer auto-cancel, printer auto-kill, printer auto-clear, printer auto-wash, printer auto-dry, printer auto-store, printer auto-protect, printer auto-secure, printer auto-backup, printer auto-restore, printer auto-update, printer auto-patch, printer auto-fix, printer auto-repair, printer auto-maintain, printer auto-clean, printer auto-lubricate, printer auto-oil, printer auto-grease.
- Row 3:** Printer status (online/offline), printer name, printer location, printer type, printer model, printer firmware, printer language, printer resolution, printer speed, printer temperature, printer power, printer sleep, printer auto-pause, printer auto-restart, printer auto-stop, printer auto-cancel, printer auto-kill, printer auto-clear, printer auto-wash, printer auto-dry, printer auto-store, printer auto-protect, printer auto-secure, printer auto-backup, printer auto-restore, printer auto-update, printer auto-patch, printer auto-fix, printer auto-repair, printer auto-maintain, printer auto-clean, printer auto-lubricate, printer auto-oil, printer auto-grease.
