For logs, we changed the color so the same for both the words as you can see in this one, not the best if you can get the attached app built under what that would be great.

Also, on the main page - "Product" "CO-Founder" - should be CRO/CO-Founder/Officer. "User Training" and "Member" - the description should be "Design and Marketing" not "Social Media" - description with each can be "In users in Canada" "Marketing and Design" "Business Innovation" can be "for the Startup App."
