The screenshot shows a chat window with a dark purple sidebar on the left containing a search bar and a list of items, with 'obie' highlighted in a teal bubble. The main chat area has a header for 'Obie' with a green active indicator and '@obie'. A message from 'James Tally' (7:38PM) asks 'How do I deploy my changes to production?'. A response from 'Obie' (7:38PM) provides a link to a Confluence page titled 'Production Deploy Process' and includes a 'Submit An Answer' button. At the bottom, a text input field contains '+ Thanks, Obie!'.

James Tally 7:38PM
How do I deploy my changes to production?

Obie 7:38PM
Here's what I found:

 Confluence
[Production Deploy Process](#)

We have 2 environments: Staging and Production

Development and testing occurs on your local machine and your own branch. Once the features have been implemented and tested locally, they are pushed to your branch and then [Show more...](#)
